## Bug Fixes

<b>Ticket</b>	<b>Description</b>
27422	HTML documentation was inadvertently not included with purchased 2.1.0 version. It is now included.
27421	Problems with the Databill code for fulfillment services using FreeBSD were corrected.
27420	A bug in determining the monthly allocation of sales caused upgrades to fail under certain circumstances was corrected. We highly recommend upgrading from 2.1.0 to 2.1.1 due to this bug.
27419	Modified several templates such that web form input fields lengths matched the database field lengths.
27418	Enabled the CHANGE button on the login password page.
