BillMax Billing Solutions

Press Release

BillMax launches fulfillment service

BillMax and DataBill partnership reduces customer's billing costs.

Fort Worth, TX, February 15, 2004: BillMax Billing Solutions along with DataBill is proud to announce the official launch of fulfillment services. BillMax's integration with DataBill offers clients a flexible and cost effective alternative for preparing, printing, and mailing of their statements and other first class mail.

Fulfillment services include: BillMax integration and data processing, two color printing on perforated paper stock, delivery and return envelopes, first class postage with fast forward, address correction reports, customized look and feel, variable messaging and graphing, bar coded and presorted delivery, lockbox integration, and one business day turnaround time.

BillMax Billing Solutions is a wholly owned subsidiary of The iSpark Group, Inc. The iSpark Group was founded in 1994 as Fastlane Communications (ISP). BillMax billing software was introduced for sale in 1997. Today BillMax is recognized internationally as a leader in billing software and services. More information about BillMax can be found at <http://www.billmax.com>

DataBill provides information management, design, printing and mailing services. DataBill offers a flexible and cost-effective outsource alternative to a variety of industries, both commercial and medical. Their philosophy is simple - listen to the clients - understand their needs - provide innovative solutions. More information about DataBill can be found at www.databill.com.
